

Congratulations GRI Clement’s Asphalt Plant for Your Diamond Achievement Award!

GEORGE REED, INC. Earns Diamond Achievement Commendation

GEORGE REED, INC. - announced that its Clement’s Asphalt plant has earned the National Asphalt Pavement Association’s (NAPA) Diamond Achievement Commendation for Excellence in Asphalt Plant/Site Operations.

The Diamond Achievement Commendation is a nationally recognized and respected program that encourages and recognizes responsible asphalt plant operational practices and cultivates good community relations. Developed in 1999, the self-assessment process addresses five essential facets of an asphalt plant and its surrounding site: appearance, operations, environmental practices, safety, and community relations.

Earning the Commendation exemplifies a company’s commitment to excellence in all aspects of an asphalt facility and symbolizes continuous improvement in operations and community relations. NAPA Chairman James Winford stated, “Earning the Diamond Achievement Commendation enhances both the image of your individual facility and the image of the asphalt pavement industry. It clearly demonstrates a corporate commitment to excellence with a community focus.”

About the National Asphalt Pavement Association

The National Asphalt Pavement Association is the only trade association that exclusively represents the interests of the asphalt pavement material producer/contractor on the national level with Congress, government agencies, and other national trade and business organizations. NAPA supports an active research program designed to improve the quality of asphalt pavements and paving techniques used in the construction of roads, streets, highways, parking lots, airports, and environmental and recreational facilities. The association provides technical, educational, and marketing materials and information to its members; supplies product information to users and specifiers of paving materials; and conducts training courses. The association, which has more than 1,200 companies as its members, was founded in 1955.

Join us in congratulating the Clement’s Asphalt plant for their outstanding performance!
